

Al-Karam Textile Mills (Pvt.) Ltd. is devoted to excellence in quality & protection of the natural environment using the earth's resources in a sustainable way.

In particular we ensure the following:

1. Abide all national/international Quality, Social, Health Safety and Environment Legislation standards and Customers' COCs.
2. Satisfy internal/external customers' and end-users' needs by setting and achieving objectives and supplying products conforming to agreed specifications on agreed timelines keeping in view the security of personnel, goods and environment.
3. With the help of technological and personnel excellence, continually improve our internal/external environment, work force skill set and manufacturing processes to meet our commitments for efficiently, reliably, on time and every time.
4. Reduce our environmental impact by conserving natural resources, reducing emissions of green-house gases, and reducing pollution through adopting renewable energy, transitioning to cleaner fuel available, and optimization of its operations and processes.
5. Reduce, Reuse, Recycle and responsibly disposed-off hazardous and non-hazardous waste.
6. Follow best chemical management practices by procuring environment friendly green-chemicals considering Zero Discharge of Hazardous Chemicals (ZDHC), Manufacturing Restricted Substances List (MRSL) by proper handling, safe storage and disposal of chemicals through appropriate protocols.
7. Maintain security of products in favor of customers and end-users at every stage of production from procurement to shipment.
8. Review our integrated management system policy & procedures periodically for continuous and continual improvements both.
